

■ Precision spacing and fit

■ Austempered heat treatment

■ 3 different serrations available

■ Distinctive MacDon Austempered section logo

■ High performance cutting edge

Austempered
Sickle Section

Austempered Sickle Section

AUSTEMPERED HEAT TREATMENT

- Austempered sickle sections are made up of substantially tougher, longer lasting material that has proven less chipping, fewer broken sections and noticeably less wear
- Unique process that involves through-hardening the entire section, versus competitors only heat-treating the cutting portion
- Substantial lab and field testing confirm worry free harvesting performance

FINE SECTION SERRATIONS

- 14 serrations per inch
 - Provides optimal cutting characteristics in green forage, high moisture and hay crops
 - Delivers a clean cut, increasing efficiency and decreasing horsepower demand during harvest
- Crops: Forage, Grasses, Flax and Lentils**

COARSE SECTION SERRATIONS

- 9 serrations per inch
 - Provides optimal balance of durability and cutting edge technology in thick stem crops
 - Recommended use for on the ground applications, coarse sickle sections hold their cutting edge longer in these high debris conditions
- Crops: Wheat, Soybeans, Canola, Cereals and Pulses**

ULTRA COARSE SECTION SERRATIONS

- 4 serrations per inch
- Provides peak cutting performance and durability in thick stemmed crops
- Recommended use for thicker stemmed crops and adverse conditions

HIGH PERFORMANCE CUTTING EDGE

- Designed to self sharpen as they wear, meaning your sickle sections will continue to stay sharp throughout the section life

PRECISION SPACING AND FIT

- Guaranteed hole spacing means your replacement sickle section will fit your MacDon perfectly every time, inconsistently spaced holes lead to premature bolt failure costing valuable downtime
- Best fit paired with your MacDon guards

DISTINCTIVE MACDON AUSTEMPERED SECTION LOGO AND PACKAGE

- Distinctive MacDon box assures you of MacDon Austempered sickle sections
- Only the MacDon logo guarantees that it's original

1-SERIES SECTION

2-SERIES SECTION

1-SERIES & 2-SERIES DIFFERENCES

2-Series Sections are not compatible with older generation MacDon headers.

2-SERIES SICKLE SECTIONS

- 286461** - Standard Clearcut Coarse Section (25)
- 286462** - Standard Clearcut Fine Section (25)
- 286627** - Standard Clearcut Ultra Coarse Section (25)
- 286463** - Clearcut Coarse Top Countersunk Section (10)
- 286464** - Clearcut Coarse Bottom Countersunk Section (10)
- 286465** - Clearcut Fine Top Countersunk Section (10)
- 286466** - Clearcut Fine Bottom Countersunk Section (10)
- 286628** - Clearcut Ultra Coarse Top Countersunk Section (10)
- 286629** - Clearcut Ultra Coarse Bottom Countersunk Section (10)
- 226983** - End Sickle Section (Single)

1-SERIES SICKLE SECTIONS

- 279641** - Coarse Sickle Section (25)
- 279642** - Fine Sickle Section (25)
- 294947** - Ultra Coarse Sickle Section (25)
- 279314** - Coarse Top Countersunk Sickle Section (10)
- 279310** - Coarse Bottom Countersunk Sickle Section (10)
- 279316** - Fine Top Countersunk Sickle Section (10)
- 279312** - Fine Bottom Countersunk Sickle Section (10)
- 279468** - End Sickle Sections (10)
